Wake-Up Ritual Practice

Part 1: Identify the Ritual Components

Use the word bank to identify the correct term for each description of a morning habit or constraint.

word bank: constraints · load-bearing · sequence · clarity · anxiety · exercise

	Description	Term
1.	The physical or social boundaries that limit your morning time.	
2.	The single most important habit that sets your day up for success.	
3.	The fixed order of steps you follow to reset your mind and body.	
4.	The state of mental focus achieved after a successful ritual.	

Part 2: Analyze Your Morning Constraints

Review the sample morning data below and answer the questions.

Student	Wake-up Time	Primary Constraint	Goal
Arav	6:00 AM	Shared bathroom	Focus
Diya	7:30 AM	Commute	Calm
Rohan	6:30 AM	Family duties	Energy
Meera	7:00 AM	Study time	Clarity

1. Who has the earliest wake-up time in the group?

.....

2. What is the primary constraint mentioned for Diya?

.....

3. Which student mentions 'Energy' as their primary morning goal?

.....

Part 3: Design Your Personal Ritual

Design your own 4-step morning ritual by responding to the prompts below.

My constraints and reality:

My one load-bearing habit:

My 3-step sequence (Reset, Clarity, Anchor):

Answer Key

Part	Answers
Part 1: Identify Rituals	1. constraints 2. load-bearing 3. sequence 4. clarity
Part 2: Analyze Data	1. Arav 2. Commute 3. Rohan
Part 3: Personal Ritual	Answers will vary. Example: Students identify constraints and create a balanced 3-step sequence.
